PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Python, Django, Django REST Framework, REST APIs, SQL, and machine learning. Developed backend applications, automation scripts, web applications, and database-driven projects through internships and academic work. Strong foundation in OOP, data structures, problem-solving, debugging, and software development.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, HTML5, CSS3

Backend: Django, Django REST Framework, REST APIs, JSON, Django ORM

Databases: MySQL, PostgreSQL, MongoDB, SQLite

Tools: Git, GitHub, Docker, Docker Compose, VS Code

Concepts: OOP, Exception Handling, Functions, Modules, Data Structures, Virtual Environments

AI & ML: NLP, Speech Recognition, Generative AI, Pandas, NumPy, Scikit-learn

INTERNSHIP EXPERIENCE

CodeAlpha *Remote*

Python Programming Intern *Aug 2026 – Sep 2026*

- Developed Python and Django applications across project-based internship assignments, including reporting, automation, and rule-based chatbot work.
- Strengthened Python programming, debugging, logical thinking, and software development skills through project-based assignments.

Unified Mentor *Hyderabad, India*

Web Developer Intern & Campus Ambassador *2025*

- Built and maintained responsive web modules using HTML and CSS.
- Mentored 50+ students through coding workshops and code reviews focused on development best practices.

PROJECTS

Task Management REST API *Python, Django, DRF, PostgreSQL*

- Developed a backend application using Django REST Framework with CRUD APIs and JSON-based request/response workflows. Used Django ORM and PostgreSQL for database operations and background processing with Celery and Redis.

Predictive Analysis Dashboard *Django, DRF, React, SQL, Scikit-learn*

- Developed a Django REST API with a React dashboard for visualization and prediction workflows. Implemented Linear Regression and Decision Tree models using Pandas, NumPy, and Scikit-learn.

AI Voice-Controlled Desktop Assistant *Python, NLP, SpeechRecognition, pyttsx3*

- Developed a voice-controlled Python automation application using speech recognition and text-to-speech. Implemented voice-based OS commands supporting 10+ desktop automation tasks.

Robotics Project *Python, Django, SQLite, HTML/CSS*

- Built a Django application for creating, managing, viewing, and exporting robotics-related student reports, including report forms, word count, detail/list views, and PDF export. GitHub: github.com/vardhan-del/codealpha_task1

Smart Home Lighting Automation System *Python, Django, SQLite, Automation*

- Built a Django simulation with PIR/LDR sensor states, automatic and manual light control, activity history, responsive dashboard, and a rule that turns the light on when a person is detected and the room is dark. GitHub: github.com/vardhan-del/codealpha_task3

Basic Chatbot - Django + Python *Python, Django, HTML/CSS*

- Built a beginner-friendly rule-based chatbot using if/elif response logic, a web chat interface, common conversational prompts, and a default response for unknown messages. GitHub: github.com/vardhan-del/codealpha_task4

EDUCATION

Malla Reddy Institute of Technology — B.Tech in Computer Science & Engineering *Hyderabad, India | 2026 – Present | CGPA: 7.71*

TTWURJC (B) Singareni College — Intermediate (12th Grade) *Telangana, India | 2020 – 2022 | 80.4%*

ZP High School Gundepudi — Secondary Education (10th Grade) *Telangana, India | 2019 – 2020 | CGPA: 9.8*

CERTIFICATIONS

- CodeAlpha Virtual Internship Program – Python Programming, 2026
- Introduction to Generative AI Studio – Simplilearn & Google Cloud, 2025
- Python using AI Workshop – AI For Techies, 2025
- Letter of Recommendation – CodeAlpha, 2026

LANGUAGES

English (Professional Proficiency) — Telugu (Native) — Hindi (Conversational)
